

### **Powers Terms you Need To Know!**

concurrent powers -	Powers exercised simultaneously by the states and the federal government.
constitutional powers -	Powers of the president granted explicitly by the Constitution.
expressed powers -	The specific powers given to Congress or the president by the Constitution;
	also called the enumerated powers.
implied powers -	Powers given to the national government by the necessary and proper clause.
inherent powers -	The powers inherent to the national government because the United States is a sovereign nation.
reserved powers -	The powers reserved to the states and the people in the Tenth Amendment.
